

# Evidence Presentation at the Franklin County Courthouse

Evidence can be presented by a laptop computer from an attorney table or mobile evidence presentation cart (seen below).

## Mobile Evidence Cart Components:

- Document Camera
- Laptop Connection (VGA with audio)
- DVD Player with Blu-Ray and SD Card Reader
- RCA inputs for a VCR, Video Camera, etc... (provided by counsel)
- Touch Screen Annotation with ability to capture, save and print annotations

Standard VGA and audio connections are provided on all attorney tables and the evidence cart. A laptop computer for evidence presentation must be provided by counsel.

**NOTE:** Currently, only laptops with a VGA output are supported (**Apple** computers and some **Windows** laptops may need an adapter, which must be provided by counsel).
